

Ailin Nakaganeku

Madrid, Spain • ailinndev@proton.me • [linkedin.com/in/ailinn](https://www.linkedin.com/in/ailinn) • github.com/ailinnakaganeku • [Portfolio](#)

Technical Skills

Languages & Frameworks: TypeScript, JavaScript, React, Next.js, Node.js, Express.js, GraphQL, REST APIs

Styling & UI: Tailwind CSS, CSS3, HTML5, Design Systems, Responsive Design

State Management & Data: Redux Toolkit, Context API, Prisma, PostgreSQL, MongoDB

Testing: Cypress, Jest, React Testing Library, E2E Testing, Accessibility Testing (WCAG)

Cloud & DevOps: AWS, Google Cloud (GCP), Docker, GitHub Actions, CI/CD, Terraform, Nginx

Tools & Analytics: Git, Jira, Figma, Postman, GA4

Product & Process: A/B Testing, Data-Driven Decision Making, Feature Prioritization, Cross-functional Collaboration

Languages: Spanish (Native), English (C2 Proficient)

Professional Experience

Crombie

Remote

Frontend Engineer, *iLovePDF*

Oct 2025 – Present

- Owned frontend decisions for a file management SaaS, translating business requirements into shipped features across 4 product versions with full context of backend, infrastructure, and product strategy
- Designed an adaptive upload system for users on unstable networks, supporting 50GB file and folder uploads with session persistence, cross-tab sync, and partial failure recovery to prevent data loss
- Integrated PDF processing workflows, bulk operations, and optimistic UI updates, reducing user friction in core file management experience
- Evaluated trade-offs between scope, user impact, and development cost for every feature, defining technical approach independently from requirement to production

Crombie

Remote

Frontend Engineer, *PUMA.com*

Sep 2024 – Oct 2025

- Drove platform upgrade to React 18 for global PUMA.com, improving page load performance and user experience at scale
- Shipped WCAG accessibility standards across the platform, expanding product reach to users with disabilities
- Implemented GA4 custom event tracking, enabling data-informed product decisions for e-commerce conversion
- Accelerated team shipping speed by optimizing CI/CD pipelines (17% faster builds) and reducing deployment risk (8% less test flakiness)

Crombie

Remote

Frontend Developer, *Wpromote*

Jul 2023 – Sep 2024

- Shipped cross-platform web experiences with CMS and e-commerce integrations, ensuring consistent user experience across desktop and mobile
- Managed multiple concurrent client projects, balancing scope, timeline, and quality across evolving requirements

Zenvia

Remote

Frontend Engineer

Oct 2021 – Jul 2023

- Contributed to a company-wide product redesign, building design system components that standardized the UI across all user-facing features
- Integrated Segment and FullStory analytics to identify user friction points, informing UX iterations that improved NPS scores
- Established documentation standards that reduced onboarding time and bug frequency for the engineering team

Tag Latam, TA Group Holdings

Remote

React Developer

Apr 2021 – Sep 2021

- Delivered a React Native iPad product for CVS Pharmacy, improving in-store customer experience and operational efficiency for a major US healthcare retailer
- Scoped user stories and prioritized features within an Agile team, operating under HIPAA compliance requirements for data

Education

Full Stack JavaScript Developer | Henry Bootcamp | Feb 2021

Curriculum: JavaScript, React, Redux, Node.js, Express, SQL, Data Structures, Algorithms, Testing

Computer Science Bachelor | Inmaculada Concepción | 2009 – 2013

Curriculum: Software Development, Hardware, Computer Systems

Certifications

Hugging Face Agents Course (2026) | Introduction to LLMs in Python (2026) | Google Cloud Digital Leader (2025) | AWS Generative AI Practitioner (2025) | Kaggle 5-Day Gen AI Intensive (2025) | EF SET English C2 Proficient (2025) | IBM Generative AI: Prompt Engineering (2024) | Mastercard Dynamic Yield Technical (2024) | Meta Principles of UX/UI Design (2024)
